Humanitarian community able to reach and operate areas of humanitarian crisis throughout the year (9.3%)

CSP budget USD 1.43 billion | 59% funded

Мау **202**1

EVALUATION

April **2022**

KEY FINDINGS & CONCLUSIONS

RELEVANCE & STRATEGIC POSITIONING

WFP well aligned with national priorities and UNSDCF, and actively engaged in inter-agency coordination

WFP assistance targeted at and relevant to the most food insecure

Limited use of gender, protection and conflict analysis to more fully identify specific needs of most vulnerable groups

Progress on

mainstreaming gender sensitivity, protection and accountability to affected populations in activities, though further efforts required

and policy coherence efforts contributed to enhanced public knowledge and policy development

Capacity strengthening

Progress in

livelihood support limited by COVID-19 restrictions and funding constraints

RESULTS & PERFORMANCE

Food assistance successfully scaled up amid rising food insecurity and access challenges in the northeast

RESOURCE MOBILIZATION & EFFICIENCY

led to gaps in numbers of people assisted compared to people in need

funding shortfalls

place on time, also thanks to the Global Commodity **Management Facility** supporting local procurement

Most deliveries took

biometric identification and corporate data visualization platforms

enhanced by

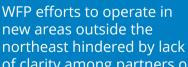

turnover and many open vacancies on key positions adversely affected CSP implementation

PARTNERSHIPS

with Government and reliance on army escorts

of clarity among partners on division of responsibilties IDP: Internally displaced people | GBV: gender-based violence | UNSDCF: United Nations Sustainable

Strategic partnerships

implementation, particularly for capacity strengthening
